

## Indianapolis Colts Lucas Oil Stadium takes its VIP lounges and Clubs to High Definition Mode

### Description

Indianapolis Colts - Lucas Oil Stadium is the home of the Indianapolis Colts football team.

### Objective

Upgrade the Indianapolis Colts Stadium VIP lounges and clubs with high resolution video walls.

### Challenge

Presenting high definition live video over IP and information from various sources on video walls. The project included hardware and software installations of:

- Two 5x5 video wall
- Four 3x3 video wall
- 85 screens showing the Colts TV broadcast
- Control over the video walls from external device
- Inputs of various media including high definition video, satellite TV, DVD and laptops

### Solution

C-nario Cube™, the only system to combine video wall technology with digital signage for remote management, content creation and show control has been chosen. Designed for superior live video-based displays integrated with live show elements and real time control.

### Results

Today, C-nario's Cube™ provides a state of the art game experience at Indianapolis Colts - Lucas Oil Stadium VIP lounges and club members. Members no longer come to enjoy the game, but to a whole show experience!
